

Noha[®]
the invisible handle

to **MAKE** it all perfect – ACCESORIES

The No-ha collection integrates handles into your projects. To make your project look perfect we optionally offer cover plates, privacy knobs and even milling tools to facilitate the installation work.

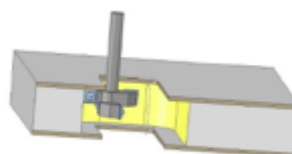

TOOLS

for **EASY** installation – milling tool

The milling tool is used to do the milling inside the panel. The 3 available models have the same purpose but differ in the number of knives or axe diameter to fit in your machine.
